Mark Berridge spent 25 years as a high-stakes corporate leader, including as Chief Negotiator for Rio Tinto Iron Ore with responsibility for USD 20 billion in annual revenue.

In 2019, a cycling accident shattered his spine and changed his world. Recovery didn't demand a new set of principles – it provided proof of the ones Mark had always lived by.

Today Mark is a keynote speaker and author of the 16-award-winning book *A Fraction Stronger*. His Finding Your FEET programs help leaders and teams build the strength that holds under pressure – the kind that doesn't fracture when it matters most.

When pressure builds, good teams don't *fracture*.
They find their **FEET**.
